

Not how the wind blows – but how
we set sail – is what matters.

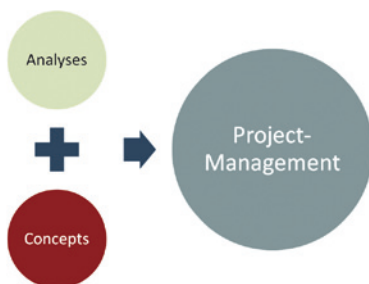

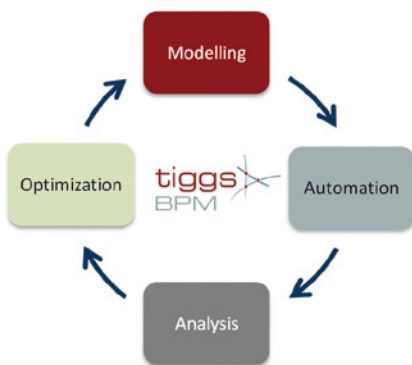

tiggs GmbH

Your goal. Our solution. Your success!

With us you are on course to success

tiggs - BPM

Business Process Management:

- BPM supports you with integration, analysis, optimization, automation, simulation and controlling your processes.
- Furthermore, we offer you a platform providing ready-made process solutions.

tiggs - BI

Business Intelligence:

- With our business intelligence solutions you gain transparency over all relevant enterprise information. Your decisions will benefit through the efficient utilization of valuable information.
- Analyses and Reporting, Dashboards, Scorecards, Data Warehouse, Data Mining, Key Performance Indicators and Performance Management.

tiggs - PM

Project Management:

- We provide counsel for planning and controlling of your projects. Our goal is to develop individual solutions for you.
- We support you all the way, starting with concept, through implementation, up to the release – and it would be our pleasure to go even further.

Together we can reach the goal

Our Philosophy

- Always keep our vision and goals in mind.
- Combine our experience with the goals of our clients to realize projects successfully.
- Quality: The absolute satisfaction of our clients is a measure of success for our business – always.
- Reliability: Consider performance according to schedule a standard, not a feature.

We're glad to be of service

An experienced and dynamic team awaits you!

Our team has accumulated 200 man years of experience, working on projects with passion and enthusiasm. It is comprised of IT-experts, economists, and mathematicians.

We know and understand the issues that our clients care about. We do not merely implement systems, we also impart the knowledge and competence within the solution. We are the interface between the IT and the operating departments.
